Ukrainian, Russian — native
English — B1

EDUCATION

MNTU, 2011
Master's, Radio Electronic Devices and Computer Systems

Courses
Full-Stack course · Mate Academy
React course · ItGid

YEVHENII VORONIN

CTO · FULL-STACK ENGINEER

CTO with 3.5+ years in commercial development. I lead a team of 4 developers and own the full development lifecycle: requirements, architecture, development, releases, infrastructure and tech budget. Built a corporate CRM and a set of internal products from scratch that connect the company's departments, advertising, finance and analytics into one system.

EXPERIENCE

CTO · TrafficJet — Apr 2025 – Present

- Lead a team of 4 developers: planning, task allocation, code review, architecture decisions, releases.
- Built a corporate CRM from scratch (React, Node.js, MongoDB, PostgreSQL): Jira-style Kanban boards, RBAC, department dashboards, push and Telegram notifications.
- Gambling and Sweeps dashboards with Zeus and Keitaro integrations, a landing page generator, an HTML slot builder and Notion-style tables; BizDev dashboard with offer and cap sync from Keitaro.
- Admin dashboard: financial analytics, agency expenses, advertiser revenue, profit, task metrics and payroll; automated daily profit, expense and salary reports to Telegram.
- Domain management via Cloudflare API and a custom URL shortener.
- Internal products: OctoBot (Playwright Facebook automation), HR CRM with a browser extension parsing LinkedIn, Work.ua, Robota.ua and Djinni, Farm CRM with Octo Browser integration and a client portal.
- Crypto exchange platform with crypto payments, remote desktop servers for staff and a Telegram bot for server management.
- Tracking setup: Keitaro, EasyAds, Meta Pixel, Google Ads GCLID, AppsFlyer; built and published Android apps to Google Play.
- Infrastructure: Docker, Nginx, VPS, GitHub Actions CI/CD, JWT/RBAC, Cloudflare bot and brute-force protection, backups, monitoring.

Frontend Developer · ASPIN — Jun 2024 – Feb 2025

Built a custom CRM from scratch based on an individual UI/UX design: responsive UI, reusable components, forms and validation, backend integration.

React · TypeScript · Redux Toolkit · MUI · Formik · MongoDB

React Native Developer · WD Studio — Feb 2024 – May 2024

Developed complete mobile applications from design layouts to ready-to-ship builds.

React Native · JavaScript

Frontend Developer · BIMP — Nov 2023 – Feb 2024

ERP system for business management: new components, bug fixes and styling; worked with designers, QA, PMs, support and backend.

React · Redux · Git

Full-Stack Developer · Freelance — Feb 2023 – Nov 2023

Full-stack tasks delivered on schedule, with regular code reviews by middle and senior developers.

Sales Manager · Nokian Tyres, BAT, LLC Silena — Before 2023

Grew turnover from zero to UAH 500K per month, doubled regional sales and led the top-performing team in Ukraine.
